SUMMARY

I am a versatile Full Stack Web Developer with a robust technical foundation and a passion for creating dynamic and user-centric web applications. Proficient in a variety of programming languages and technologies, I excel at both front-end and back-end development, and am committed to delivering high-quality, scalable solutions. My experience includes working with modern frameworks and tools, ensuring responsive design, and optimizing performance.

With a background in Chemical Engineering, I bring a unique analytical perspective and problem-solving skills to my development work. Currently seeking an internship or junior developer role to further expand my skills and contribute to innovative projects. Trilingual in English, Spanish, and Portuguese, I am highly detail-oriented, quick to adapt to new concepts, and eager to continuously learn and grow in the field of web development.
